

VIDA

An aerial view of a futuristic city at dusk. The central focus is a tall, cylindrical skyscraper with a facade covered in lush green plants and small, colorful balconies. The building is illuminated from within, and its top is also green. The surrounding city is rendered in a semi-transparent, greyish-blue style, showing various building shapes and a network of roads. The sky is a mix of blue and purple, with some clouds. The overall atmosphere is one of modern, sustainable urban development.

THE FUTURE OF URBAN LIVING

LIVE@VIDA

The image shows two tall, modern skyscrapers with a unique architectural design. Each floor has a balcony that is partially enclosed by a white railing, creating a grid-like pattern. The balconies are filled with lush green plants, giving the buildings a vertical garden appearance. The buildings are set against a clear blue sky with some light clouds. The overall aesthetic is clean, modern, and eco-friendly.

A MODERN-DAY
MASTERPIECE

OFFERING

UNOBSTRUCTED
VIEWS FROM EVERY
APARTMENT.

We have ensured each house has their own share of greens with sustainable green building facade.

AMENITIES THAT SPREAD ACROSS MORE THAN

WE'RE SO MUCH MORE THAN A RESIDENCE
Make the most of our sky park
with jogging track, a Yoga deck,
Meditation deck, a sizable event
area. (This is at sky park)

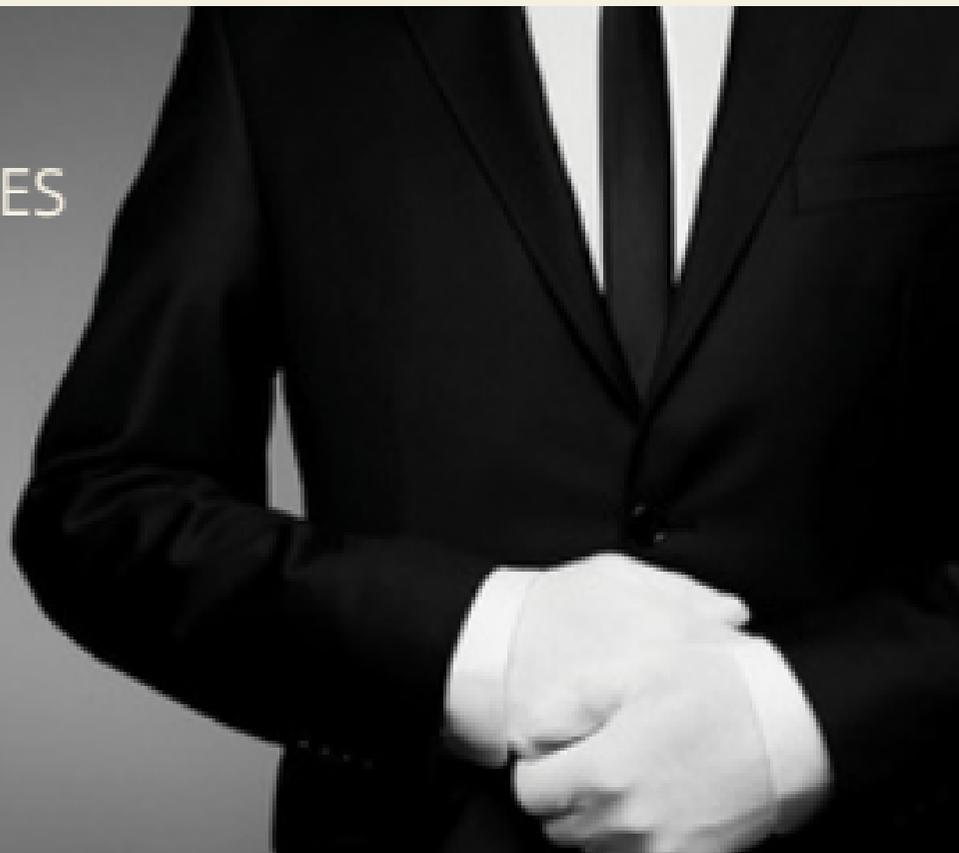

A photograph of a modern, bright resident gym. The room features a light-colored wooden floor and a ceiling with horizontal wood slats. On the left, a long wall of floor-to-ceiling windows allows natural light to fill the space. A row of treadmills is positioned along this wall. In the foreground, two large, light-colored exercise balls sit on the floor. In the center and right, several elliptical machines are arranged. A blue mat is placed on the floor near the ellipticals. The overall atmosphere is clean, bright, and contemporary.

resident gym, swimming pool and
spa (first and ground floor)

Concept

Our vision was to provide a landmark for contemporary living with aspects of sustainability and a green and colourful vibe. The towers will be an identity giving a great standing position in the urban context for this upcoming socio-economic quarter and the bespoke apartments will cater to the needs of the cosmopolitan inhabitants. What is most important for us is that the spaces will be not only highly functional and efficient but also happy, open, well-lit and take advantage of the amazing views that the location has to offer.

A colour was added to give a vibrancy in the dialogue between the elegant horizontal white lines and the natural greens growing and hanging over. This also gives a sense of recognition and visual connection to the users. The horizontal bands give a strong structure to the building with an elegant feel where planters are added and balconies pop out which also gives an additional advantage of shading of the outer wall of the apartments.

Architecture

The development is a composition of 2 towers measuring 117m connected by 6 bridges. The vertical green which is integrated in the façade adds a positive vibe not only in the urban context to the building as a strong standing landmark, but also to the user with direct usage not only of the amazing views but also the greens which are wrapping this building. In each of the towers the ground and first floor are for common spaces and amenities, and floors above this are a mix of 1, 2 and 3 bedroom apartments for a vivid combination of singles, couples, and everyone can find something according to their needs.

The bridges between the buildings and the whole roof top terraces are valuable additional green spill out spaces made accessible to all users. The area of the green bridges will connect the two towers like a green joint thus providing a visual delight to the passers-by.

Hartmut Wurster

Blocher Partners India is the Indian presence of the renowned Germany-based architecture and design firm Blocher Partners, active globally. Hartmut Wurster arrived 11 years ago and setup the office in Ahmedabad. Our diverse team of architects, graphic designers, interior designers, communication specialists, environmental planners and product designers is spread across Stuttgart, Berlin, Mannheim and Ahmedabad. We are able to offer our transdisciplinary service by combining architecture, urban planning, interior design, product design and communication.
